## DETAILED ACTION

### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- Please, **change dependency** of claims 11, 20 and 33. **Delete** "claim 4" and **replace** with --claim 3--.

### *Allowable Subject Matter*

2. Claims 1-3 and 5-38 are allowed.

3. The following is an examiner's statement of reasons for allowance: The prior art of record shows SAW devices comprising a plurality of SAW elements having interdigital transducer electrodes and reflectors disposed in the propagation direction of the surface acoustic wave. However, it fails to disclose the SAW elements connected in parallel and wherein each of the SAW elements comprises: at least 3 interdigital transducer electrodes and a ground connection electrode that connects together a first part of each comb shaped electrode pair forming the interdigital transducer electrodes and one ground pad that is connected to the ground electrodes. With regards to claim 3, JP2002-319843 shows SAW elements connected in series but fails to disclose the connection in parallel. Dependent claims 2 and 5-38 are allowed based on their dependency from claims 1 and 3.
